ROLE PROFILE

Job Title: Teaching Associate in Veterinary Anatomy

School/Department: School of Veterinary Medicine and Science

Job Family and Level: Research and Teaching, Level 4

Contract Status: Permanent

Hours of Work: Full-time (36.25 hours per week)

Location: The post will be based at the School of Veterinary Medicine and Science, Sutton Bonington Campus and at the Clinical Associate Practices

Reporting to: Head of Division

Purpose of the New Role:
To carry out teaching, clinical work and administration.

Main Responsibilities

1. To participate in the delivery of teaching and on-going development of an innovative integrated, undergraduate curriculum (this may include convening a teaching module).

2. To participate and facilitate teaching and supervision of both undergraduate and postgraduate students in the area of veterinary anatomy.

3. To teach and examine in a wide range of modules convened by the School. The modules involved may embrace any area of Veterinary Science (dependent upon the background and experience of the persons appointed).

4. To forge appropriate clinical and educational collaborations within and outside the University.

5. To undertake training consistent with continuous professional development.

6. To assist with the efficient and effective completion of the work of the School.

7. To assist with the delivery of postgraduate programmes and CPD, dependant on skill-set.

8. To undertake any other duties appropriate to the grade and role of the person appointed, as required by the Head of School.

This job description may be subject to revision following discussion with the person appointed and forms part of the contract of employment.
