### Skills
- Excellent oral and written communication skills, including the ability to communicate with clarity on complex information.
- High analytical ability to analyse and illuminate data, interpret reports, evaluate and criticise texts and bring new insights.
- Ability to creatively apply relevant research approaches, models, techniques and methods.
- Ability to assess and organise resource requirements and deploy effectively.
- Ability to build relationships and collaborate with others, both internally and externally.

### Knowledge and experience
- Expert knowledge of Motives or $A^1$-homotopy theory.
- Proven ability to produce research of high quality in Motives or $A^1$-homotopy theory or closely related discipline.
- Some practical experience of applying the specialist skills and approaches and techniques required for the role.

### Qualifications, certification and training (relevant to role)
- PhD or equivalent, in a relevant branch of mathematics.
- Background knowledge in Algebraic Cycles.
- Published papers in relevant academic journals.
- Previous success in gaining support for externally funded research projects.
- Experience of developing new approaches, models, techniques or methods in research area.

The University strongly endorses Athena SWAN principles, with commitment from all levels of the organisation in furthering women’s careers. It is our mission to ensure equal opportunity, best working practices and fair policies for all.
Expectations and behaviours

The University has developed a clear set of core expectations and behaviours that our people should be demonstrating in their work, and as ambassadors of the University’s strategy, vision and values. The following are essential to the role:

Valuing people
Is always equitable and fair and works with integrity. Proactively looks for ways to develop the team and is comfortable providing clarity by explaining the rationale behind decisions.

Taking ownership
Is highly self-aware, looking for ways to improve, both taking on board and offering constructive feedback. Inspires others to take accountability for their own areas.

Forward thinking
Driven to question the status quo and explore new ideas, supporting the team to “lead the way” in terms of know-how and learning.

Professional pride
Sets the bar high with quality systems and control measures in place. Demands high standards of others identifying and addressing any gaps to enhance the overall performance.

Always inclusive
Ensures accessibility to the wider community, actively encouraging inclusion and seeking to involve others. Ensures others always consider the wider context when sharing information making full use of networks and connections.
