Purpose of role

The School has established an innovative unique apprenticeship for small animal veterinary practitioners - MSc Advanced Clinical Practioner (Veterinary).

There are 3 phases to the programme:

- Phase 1 supports apprentices through their Veterinary Graduate Development Programme (VetGDP). This phase is designed to solidify and advance new graduates' knowledge, skills and behaviours in small animal general practice, while practising evidence-based veterinary medicine.
- Phase 2 progresses apprentices to more advanced areas of small animal clinical practice, gaining an RCVS Certificate of Advanced Veterinary Practice (CertAVP).
- Phase 3 develops the key knowledge, skills and behaviours linked to advanced veterinary practice, culminating in a MSc Advanced Clinical Practice (Veterinary).

The role is to develop, participate in and facilitate teaching, learning and assessment of the veterinary apprenticeship, and also to undertake relevant academic administration of the programme. In addition, dependant on interests, the role holder may have the opportunity to support the delivery and on-going development of an innovative clinical undergraduate curriculum through a day/week practice-based clinical service.

Main responsibilities

(Primary accountabilities and responsibilities expected to fulfil the role)

▪ CertAVP |

---

The University of Nottingham is focused on embedding equality, diversity and inclusion in all that we do. As part of this, we welcome a diverse population to join our workforce and therefore encourage applicants from all communities, particularly those with protected characteristics under the Equality Act 2010.
Expectations and behaviours

The University has developed a clear set of core expectations and behaviours that our people should be demonstrating in their work, and as ambassadors of the University’s strategy, vision and values. The following are essential to the role:

**Valuing people**
Understands that it is essential to provide a structure that people can thrive in. Knows how to communicate with people to create a healthy working environment and get the best out of people.

**Taking ownership**
Communicates vision clearly, providing direction and focus. Knows how to create a productive environment where people are inspired and can work cross-departmentally.

**Forward thinking**
Has the ambition to be a pioneer in own area, anticipating the future change, needs and challenges. Knows how to innovate within their work context and champions others to be inspired to be part of this ambition.

**Professional pride**
Keeps up to date on latest thinking, trends and work practices. Supports team to be thought leaders; willing to challenge if obstacles get in the way.

**Always inclusive**
Establishes far reaching partnerships, well beyond own area across a broad range of networks. Understand role to pay due regard to the needs of the whole community.

Some benefits of working for the School of Veterinary Medicine and Science, University of Nottingham

- You will become a member of a friendly, knowledgeable and sociable team
- excellent pension contribution scheme
- enhanced maternity leave (subject to length of employment)
- excellent CPD opportunities
- excellent work-life balance
- excellent sick pay entitlement
- competitive holiday/annual leave
