## Purpose of role

To manage industry engagement for the new Mental Health Mission (MHM), which is a £42.7 million investment in mental health research which aims to develop new treatments, improve diagnosis, increase the use of innovative technology, and make the UK the place of choice for research with the Health Technology industry. You will be based within the MindTech research group at the University of Nottingham and will be a key member of the MHM Management Team which will be located across the Mission sites including Oxford, Manchester, Birmingham and Liverpool.

You will work closely with the MindTech and MHM leadership teams to contribute to the strategic, budgetary, resource and operational planning of all industry engagement activities. You will have lead responsibility for linking the MHM with the MindTech research group, the Mental Health Technology industry as well as the wider Mental health innovation landscape. You will be responsible for identifying industry engagement opportunities and building strategic relationships with companies, industry bodies and other organisations across the Mental Health Innovation pathway. You will also take a lead role in publicising the MHM and identifying opportunities to contribute to national and international innovation and policy initiatives relating to Mental Health Technology.

You will be a dynamic and effective individual, with the ability to risk assess and prioritise competing demands in order to present informed recommendations to Senior Management and Programme Sponsors together with ability to implement recommendations.

The duties and percentage time allocation provides an indication and framework for the role and should not be regarded as a definitive list or allocation. Other reasonable duties commensurate with the grade, spirit and purpose of the post may be requested.

### Main responsibilities

(Primary accountabilities and responsibilities expected to fulfil the role)

Expectations and behaviours

The University has developed a clear set of core expectations and behaviours that our people should be demonstrating in their work, and as ambassadors of the University’s strategy, vision and values. The following are essential to the role:

**Valuing people**
Is always equitable and fair and works with integrity. Proactively looks for ways to develop the team and is comfortable providing clarity by explaining the rationale behind decisions.

**Taking ownership**
Is highly self-aware, looking for ways to improve, both taking on board and offering constructive feedback. Inspires others to take accountability for their own areas.

**Forward thinking**
Driven to question the status quo and explore new ideas, supporting the team to “lead the way” in terms of know-how and learning.

**Professional pride**
Sets the bar high with quality systems and control measures in place. Demands high standards of others identifying and addressing any gaps to enhance the overall performance.

**Always inclusive**
Ensures accessibility to the wider community, actively encouraging inclusion and seeking to involve others. Ensures others always consider the wider context when sharing information making full use of networks and connections.
