

Job title	Senior Research Fellow	Job family and level	Research and Teaching, level 5
School/ Department	School of Medicine, IRIS	Location	Queen's Medical Centre, Nottingham

Purpose of role

The purpose of this role will be to lead and deliver individual and collaborative research in Falls in care homes, FinCH Implementation National Study, and make a contribution to the direction of research programmes in the School of Medicine.

You will join an established team, led by Professor Pip Logan, whose main areas of research interest include care homes, falls, rehabilitation, ageing.

You will be responsible for generating new intellectual understanding/knowledge through the application of knowledge and for developing ideas for application of research outcomes.

You will sustain and pursue a research plan in planning falls in care home research, and will develop new concepts and ideas. Where appropriate, you will develop and win support for innovative research development proposals and funding bids.

The School of Medicine recognise the importance of continuous professional development and therefore the importance of providing opportunities, structured support and encouragement to engage in professional development each year.

To find out more about the School of Medicine, its value, vision, teaching and research, please see our [further information leaflet](#).
