

Job title	Research Associate/Fellow in Statistics (Fixed-term)	Job family and level	Research & Teaching Level 4 (Appointment will be Level 4 Career training grade where an appointment is made before PhD has been completed)
School/ Department	Mathematical Sciences	Location	University Park Campus

Purpose of role

- Have specific responsibility for research and for developing research objectives with Prof. Theodore Kyraios and the wider project team of the NIHR Healthcare Protection Research Unit on Healthcare Associated Infections and Antimicrobial Resistance in collaboration with colleagues at the University of Oxford and UK's Health Security Agency (UKHSA).
- Plan and conduct work using approaches or methodologies and techniques appropriate to the type of research.
- Be responsible for writing up their work for publication and have the opportunity to use their initiative and creativity to identify areas for research, develop research methods and extend their research portfolio.

	Main responsibilities (Primary accountabilities and responsibilities expected to fulfil the role)	% time per year
1	Research ▪ Undertake original research of international excellence. ▪ Develop research objectives and proposals for own and/or collaborative research area. ▪ Plan and conduct research using recognised approaches, methodologies and techniques within the research area. ▪ Collaborate with academic colleagues on areas of shared interest for example, collaborative or joint research projects. ▪ Plan and manage own research activity and resolve problems, if required, in meeting own/team research objectives and deadlines in collaboration with others. ▪ Identify opportunities and assist in writing bids for research grant applications.	80 %
2	Engagement, Communication and Dissemination ▪ Analyse and illuminate data, interpret reports, evaluate and criticise texts and bring new insights to research area. ▪ Prepare papers for publication in leading journals and/or contribute to the dissemination at national/international conferences, workshops and meetings resulting in successful research outputs. ▪ Provide support, guidance and supervision to other staff, where appropriate in own area of expertise.	20%

Person specification

	Essential	Desirable
Skills	▪ Excellent oral and written communication skills, including the ability to communicate with clarity on complex information. ▪ Excellent organisational skills ▪ High analytical ability to analyse and illuminate data, interpret reports, evaluate and criticise texts and bring new insights. ▪ Ability to creatively apply relevant research approaches, models, techniques and methods. ▪ Ability to assess and organise resource requirements and deploy effectively. ▪ Ability to build relationships and collaborate with others, both internally and externally. ▪ Ability to work independently and as part of a multidisciplinary and multicultural team	▪ Ability to foster a research culture and commitment to learn in others.
Knowledge and experience	▪ Expert knowledge of statistical modelling, statistical inference (including computational statistics methods), use of relevant software (e.g. R/Python) both for data processing, visualisation and programming. ▪ Proven ability to produce research of high quality in statistics, machine learning, or closely related discipline. ▪ Experience of developing new approaches, models, techniques or methods in research area. ▪ Some practical experience of applying the specialist skills and approaches and techniques required for the role. ▪ Networking, actively engaging with and valuing other areas and diverse groups	▪ Published papers in relevant academic journals. ▪ Background in infectious disease modelling and/or healthcare associated infections.
Qualifications, certification and training (relevant to role)	▪ PhD or equivalent, in a relevant branch of statistics, machine learning, data science, or a closely related discipline OR near to completion of a PhD.	

Expectations and behaviours

The University has developed a clear set of core expectations and behaviours that our people should be demonstrating in their work, and as ambassadors of the University's strategy, vision and values. The following are essential to the role:

Valuing people	Is always equitable and fair and works with integrity. Proactively looks for ways to develop the team and is comfortable providing clarity by explaining the rationale behind decisions.
Taking ownership	Is highly self-aware, looking for ways to improve, both taking on board and offering constructive feedback. Inspires others to take accountability for their own areas.
Forward thinking	Driven to question the status quo and explore new ideas, supporting the team to "lead the way" in terms of know-how and learning.
Professional pride	Sets the bar high with quality systems and control measures in place. Demands high standards of others identifying and addressing any gaps to enhance the overall performance.
Always inclusive	Ensures accessibility to the wider community, actively encouraging inclusion and seeking to involve others. Ensures others always consider the wider context when sharing information making full use of networks and connections.
